

Moving heARTS Gala

Save the date – March 16, 2013

Moving Hearts Foundation has adopted LOT318 to teach our children the value of the “Arts.” Our dear volunteer, Jamie, has committed to come out once a month to teach our students how to draw. She has been in our community 2 times and each time she has captivated our student’s hearts. In the near future our students will paint a mural in the community to demonstrate unity and hope.

Please join us and come meet a few of our young artist during the Gala. You will have the opportunity to purchase their recent art, as well. Won’t you help raise the funds to provide this program to our community?

Moving heARTS Foundation is an arts based organization that aims to build relationships through the visual and performing arts for those in need. Our programs provide loving professionals who expose students to personal giftedness and bridge that gift with opportunity and possibility in the world.
